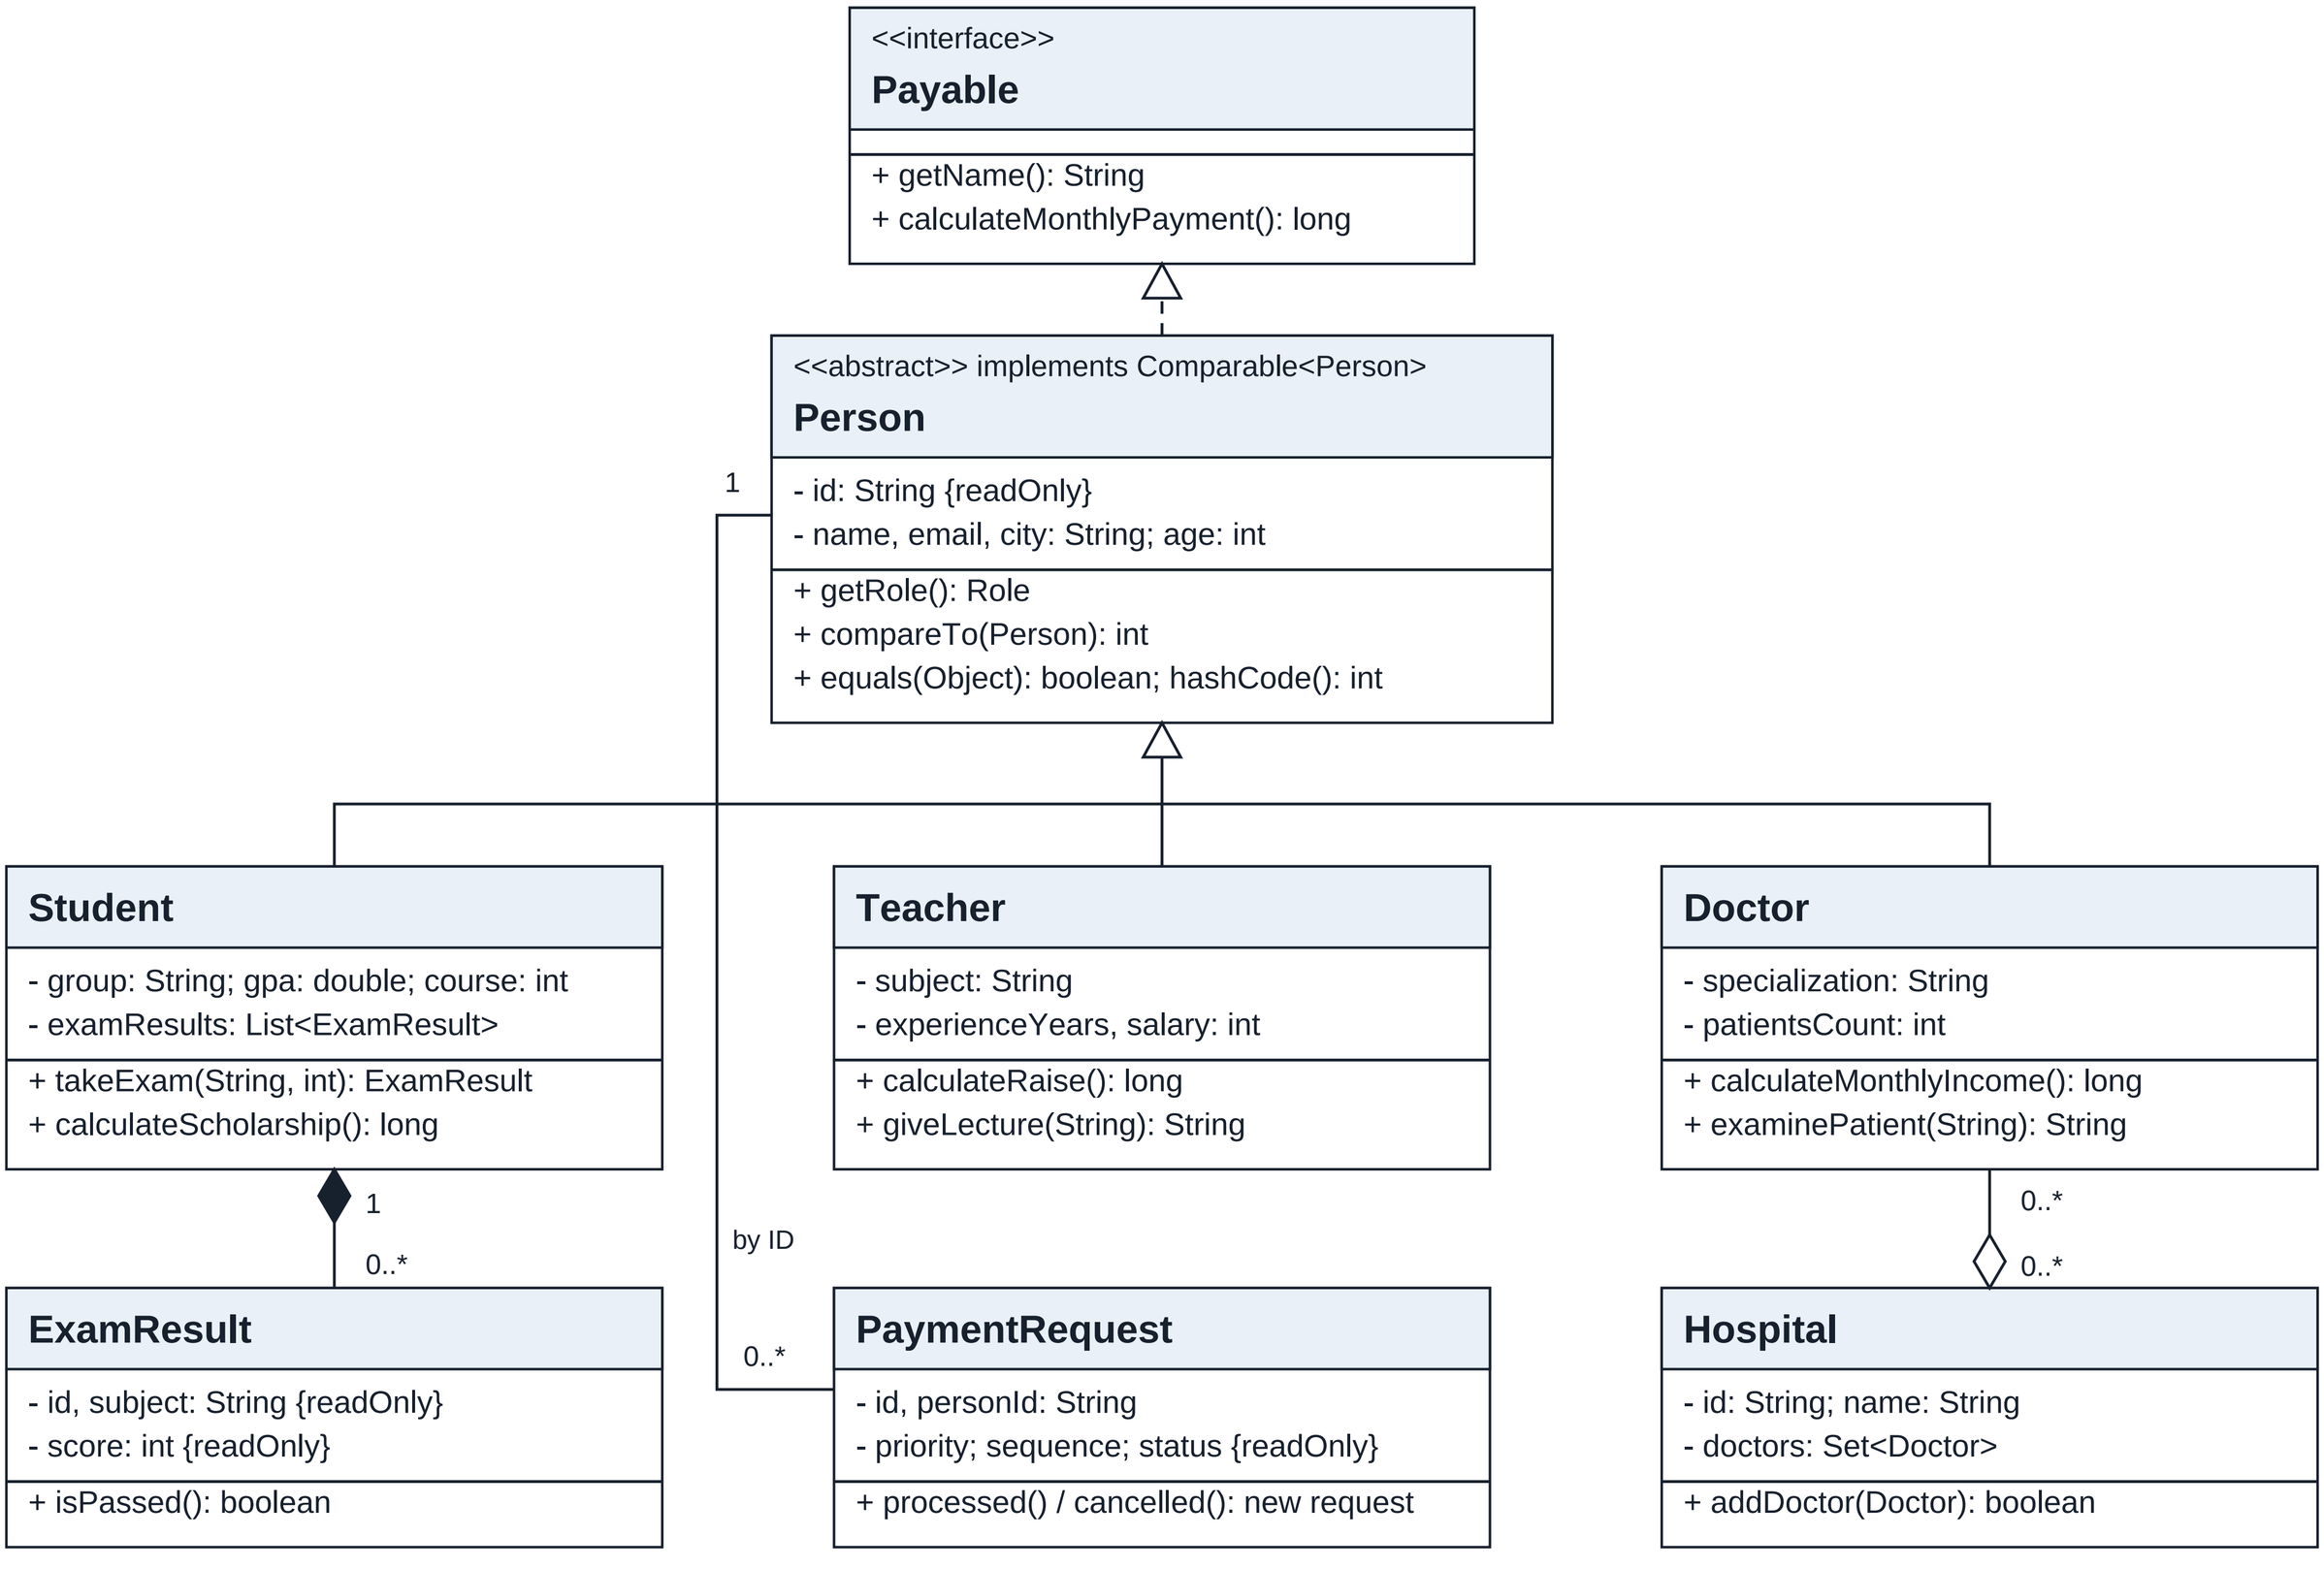
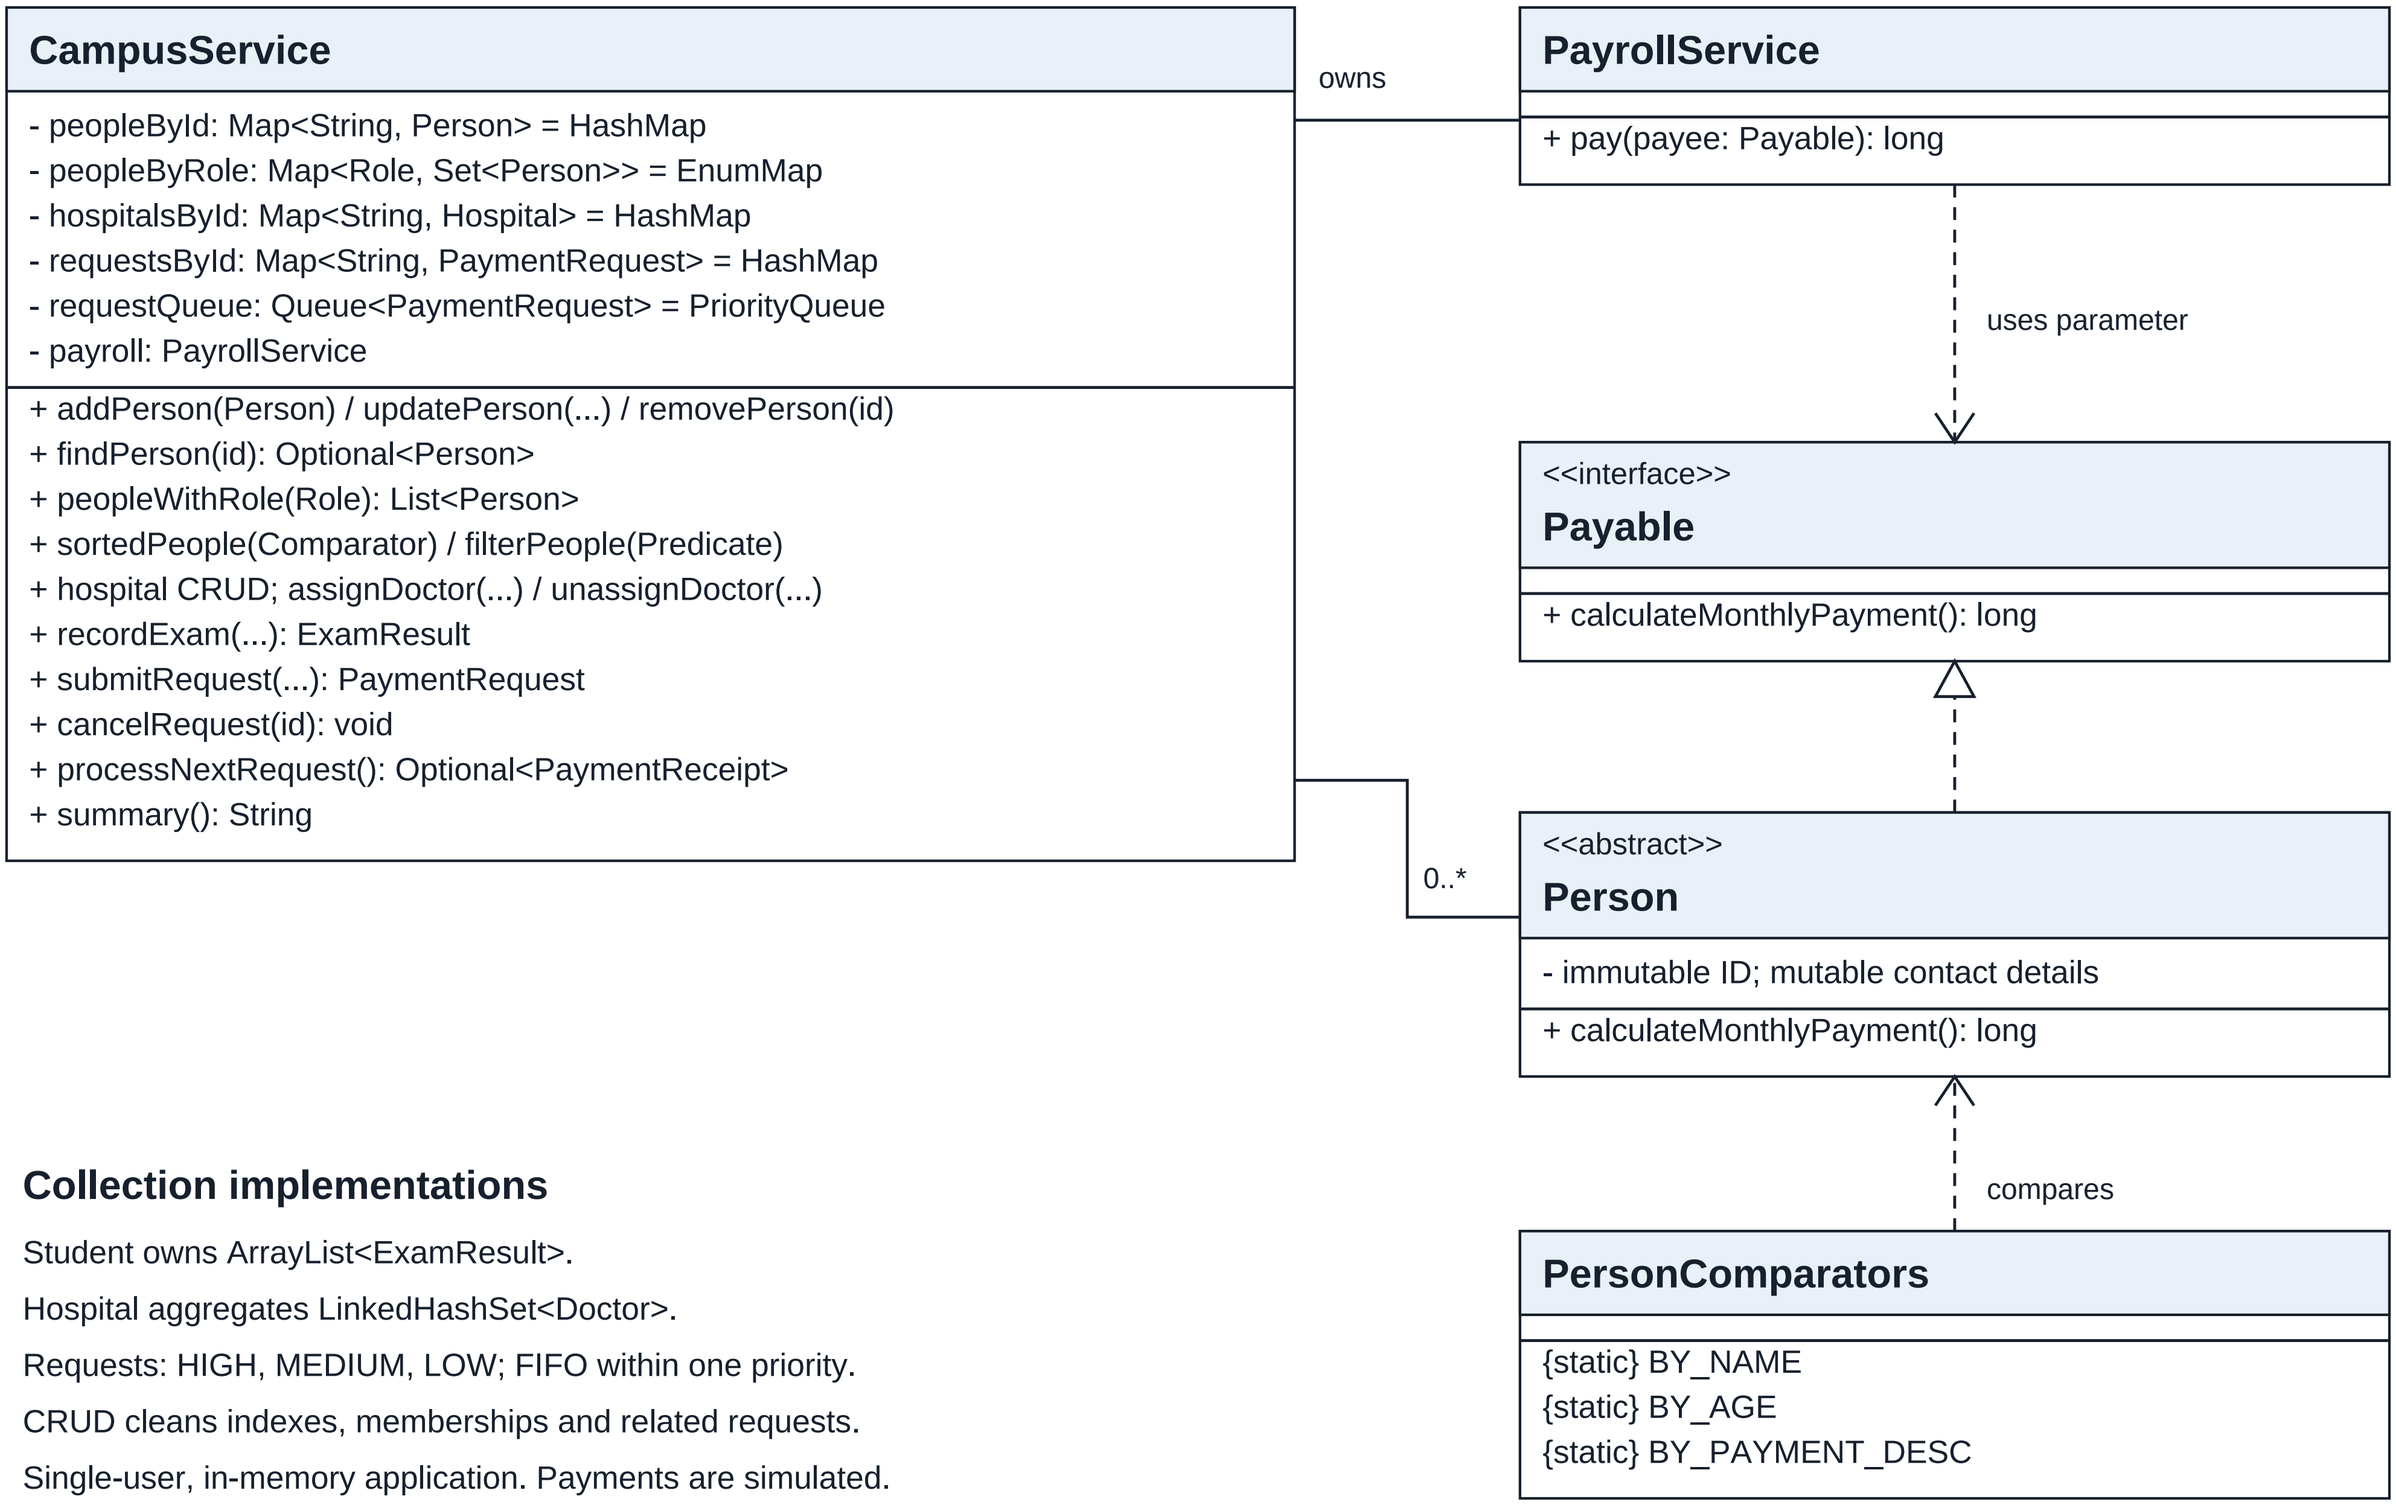
OOP nemo | Domain model

Selected members shown. Getters, setters and enum classes omitted for readability.



OOP nemo | Service layer and collection ownership

Main and Demo call CampusService. PersonComparators defines the three selectable sort views.



Collection implementations

Student owns ArrayList<ExamResult>.

Hospital aggregates LinkedHashSet<Doctor>.

Requests: HIGH, MEDIUM, LOW; FIFO within one priority.

CRUD cleans indexes, memberships and related requests.

Single-user, in-memory application. Payments are simulated.
